## **2. SPECIAL PROVISIONS RELATING TO WORK FUNDED UNDER THE AMERICAN RECOVERY AND REINVESTMENT ACT OF 2009**

### **A. ARRA-FUNDED PROJECT**

Funding for this award is from the American Recovery and Reinvestment Act (ARRA) of 2009, Pub. L. 111-5. Funding for this award is authorized by Public Resources Code, Section 25422, and the State Energy Program, Federal Grant Number DE-EE0000221, CFDA Number 81.041. The federal grant term expires on April 30, 2012. The Borrower and all subawardees/vendors are subject to audit by appropriate federal or State of California (State) entities. The State has the right to cancel, terminate, or suspend this Agreement if the Borrower or its subawardee fails to comply with the reporting and operational requirements contained herein.

### **B. ENFORCEABILITY**

The Borrower agrees that if it or one of its subawardees/vendors fails to comply with all applicable federal and State requirements governing the use of ARRA funds, the State may withhold or suspend, in whole or in part, funds awarded under the program, or recover misspent funds following an audit. This provision is in addition to all other remedies available to the State under all applicable State and federal laws.

## **C. REGISTRATION REQUIREMENTS**

Prior to beginning work, the Borrower must obtain a Dun and Bradstreet Data Universal Numbering System (DUNS) number and register with the Central Contract Registration (CCR). Websites are as follows:

DUNS website: [http://www.dnb.com/US/duns\\_update](http://www.dnb.com/US/duns_update)

CCR website: <http://www.ccr.gov>

The Borrower must maintain current registrations in the CCR at all times during which it has an active award funded with ARRA funds. A DUNS Number is one of the requirements for registration in the CCR.

## **D. SEGREGATION OF COSTS AND RECORDS**

The Borrower and its subawardees/vendors must segregate the obligations and expenditures related to funding under ARRA. Financial and accounting systems should be revised as necessary to segregate, track, and maintain these funds apart and separate from other revenue streams. No part of the funds from ARRA shall be commingled with any other funds or used for a purpose other than that of making payments for costs allowable for ARRA projects. Pursuant to 10 C.F.R. section 600.242 (incorporated by reference herein), records must be maintained for three (3) years after the loan is repaid in full or 3 years after the federal grant term, whichever is later, unless the Commission or Federal Government requests a longer retention period.

The Borrower and its subawardees/vendors must keep separate records for ARRA funds to ensure those records comply with the requirements of ARRA. If this loan is split-funded with non-ARRA funds, the Borrower must track and report the ARRA funds separately to meet the reporting requirements of ARRA and related guidance.

The Borrower's accounting records must be supported by such source documentation as cancelled checks, paid bills, payrolls, time and attendance records, and contract and subaward/vendor documents.

The Borrower recognizes that Title 10 of the Code of Federal Regulations (CFR) section 420.18 places limitations on the use of funds available under this Agreement. The parties recognize and acknowledge that the funds available under this Agreement may be used for the purchase and installation of equipment and materials for energy efficient measures and renewable energy measures, including reasonable design costs, in accordance with 10 CFR 420.18, subdivision (e). The parties further recognize and acknowledge that the 50 percent funding limitations of 10 CFR 420.18, subdivision (e), paragraph (2), do not apply to the use of ARRA funds under this Agreement. (Refer to Section 9.7 of Exhibit 1 of the

U.S. Department of Energy Funding Opportunity Announcement DE-FOA-0000052.)

#### **E. PROHIBITION ON USE OF ARRA FUNDS**

The Borrower agrees that, in accordance with ARRA, Section 1604, none of the funds provided under this agreement derived from ARRA may be used for any casino or other gambling establishment, aquarium, zoo, golf course, or swimming pool.

#### **F. ACCESS TO RECORDS**

In accordance with ARRA Sections 902, 1514, and 1515, the Borrower agrees that it shall permit the State of California, the United States Comptroller General or his representative, or the appropriate Inspector General appointed under Section 3 or 8G of the United States Inspector General Act of 1978 or his representative to: (1) examine any records of the Borrower or any of its subawardees/vendors that directly pertain to, and involve transactions relating to, this Agreement; and (2) interview any officer or employee of the Borrower or any of its subawardees/vendors regarding the activities funded with funds appropriated or otherwise made available by ARRA. The Borrower shall include this provision in all of its agreements with its subawardees/vendors from whom it acquires goods or services in its execution of the ARRA-funded work.

#### **G. PUBLICATION**

Information about this agreement will be published on the Internet and linked to the website [www.recovery.gov](http://www.recovery.gov), maintained by the Accountability and Transparency Board. The Board may exclude posting contractual or other information on the website on a case-by-case basis when necessary to protect national security or to protect information that is not subject to disclosure under sections 552 and 552a of title 5, United States Code.

#### **H. PROTECTING STATE AND LOCAL GOVERNMENT AND CONTRACTOR WHISTLEBLOWERS**

The Borrower agrees that both it and its subawardees/vendors shall comply with Section 1553 of ARRA, which prohibits all non-federal contractors, including the State, and all contractors of the State, from discharging, demoting or otherwise discriminating against an employee for disclosures by the employee that the employee reasonably believes are evidence of: (1) gross mismanagement of a contract relating to ARRA funds; (2) a gross waste of ARRA funds; (3) a substantial and specific danger to public health

or safety related to the implementation or use of ARRA funds; (4) an abuse of authority related to implementation or use of ARRA funds; or (5) a violation of law, rule, or regulation related to an agency contract (including the competition for or negotiation of a contract) awarded or issued relating to ARRA funds. The Borrower agrees that it and its subawardees shall post notice of the rights and remedies available to employees under Section 1553 of Title XV of Division A of the ARRA.

The requirements of Section 1553 of the ARRA are summarized below. They include, but are not limited to:

**Prohibition on Reprisals:** An employee of any non-federal employer receiving covered funds under ARRA may not be discharged, demoted, or otherwise discriminated against as a reprisal for disclosing, including a disclosure made in the ordinary course of an employee's duties, to the Accountability and Transparency Board, an inspector general, the Comptroller General, a member of Congress, a State or federal regulatory or law enforcement agency, a person with supervisory authority over the employee (or other person working for the employer who has the authority to investigate, discover or terminate misconduct), a court or grand jury, the head of a federal agency, or their representatives, information that the employee believes is evidence of:

- Gross management of an agency contract or grant relating to covered funds;
- A gross waste of covered funds;
- A substantial and specific danger to public health or safety related to the implementation or use of covered funds;
- An abuse of authority related to the implementation or use of covered funds; or
- A violation of law, rule, or regulation related to an agency contract (including the competition for or negotiation of a contract) or grant, awarded or issued relating to covered funds.

**Agency Action:** Not later than 30 days after receiving an inspector general report of an alleged reprisal, the head of the agency shall determine whether there is sufficient basis to conclude that the non-federal employer has subjected the employee to a prohibited reprisal. The agency shall either issue an order denying relief in whole or in part or shall take one or more of the following actions:

- Order the employer to take affirmative action to abate the reprisal.
- Order the employer to reinstate the person to the position that the person held before the reprisal, together with compensation including back pay, compensatory damages, employment benefits, and other

terms and conditions of employment that would apply to the person in that position if the reprisal had not been taken.

- Order the employer to pay the employee an amount equal to the aggregate amount of all costs and expenses (including attorneys' fees and expert witnesses' fees) that were reasonably incurred by the employee for or in connection with, bringing the complaint regarding the reprisal, as determined by the head of a court of competent jurisdiction.

**Non-enforceability of Certain Provisions Waiving Rights and Remedies or Requiring Arbitration:** Except as provided in a collective bargaining agreement, the rights and remedies provided to aggrieved employees by this section may not be waived by any agreement, policy, form, or condition of employment, including any predispute arbitration agreement. No predispute arbitration agreement shall be valid or enforceable if it requires arbitration of a dispute arising out of this section.

**Requirement to Post Notice of Rights and Remedies:** Any employer receiving covered funds under ARRA shall post notice of the rights and remedies as required therein. (Refer to Section 1553 of ARRA located at [www.recovery.gov](http://www.recovery.gov), for specific requirements of this section and prescribed language for the notices.)

## **I. INFORMATION IN SUPPORT OF ARRA REPORTING**

The Borrower will be required to submit backup documentation for expenditures of funds under ARRA including such items as timecards and invoices. See Loan Agreement, Section 3, Loan Disbursement Schedule, for more details on backup documentation required for invoicing. In addition to the invoicing requirements, the Borrower shall provide copies of backup documentation at the request of the U.S. Department of Energy's (DOE's) Contracting Officer or designee, or the Commission's Contract Manager or designee.

## **J. FALSE CLAIMS ACT**

The Borrower agrees that it shall promptly notify the State and shall refer to an appropriate federal inspector general any credible evidence that a principal, employee, agent, subawardee/vendor or other person has committed a false claim under the False Claims Act or has committed a criminal or civil violation of laws pertaining to fraud, conflict of interest, bribery, gratuity, or similar misconduct involving ARRA funds.

## **K. AVAILABILITY OF FUNDS**

Funds appropriated under ARRA and obligated to this award are available for reimbursement of costs until the end of the loan term or April 30, 2012, whichever comes first.

## **L. REPORTING AND REGISTRATION REQUIREMENTS UNDER SECTION 1512 OF ARRA**

**M. REQUIRED USE OF AMERICAN IRON, STEEL, AND MANUFACTURED GOODS (COVERED UNDER INTERNATIONAL AGREEMENTS) — SECTION 1605 OF THE AMERICAN RECOVERY AND REINVESTMENT ACT OF 2009**

The Borrower agrees that in accordance with ARRA, Section 1605, neither it nor its subawardees/vendors will use ARRA funds for a project for the construction, alteration, maintenance, or repair of a public building or public

work unless all of the iron, steel and manufactured goods used in the project are produced in the United States in a manner consistent with United States obligations under international agreements. The Borrower understands that this requirement may only be waived by the applicable federal agency in limited situations as set out in ARRA, Section 1605.

1) Definitions. As used in this award term and condition—

- a) Manufactured good means a good brought to the construction site for incorporation into the building or work that has been—
  - Processed into a specific form and shape; or
  - Combined with other raw material to create a material that has different properties than the properties of the individual raw materials.
- b) Public building and public work means a public building of, and a public work of, a governmental entity (the United States; the District of Columbia; commonwealths, territories, and minor outlying islands of the United States; State and local governments; and multi-State, regional, or interstate entities which have governmental functions). These buildings and works may include, without limitation, bridges, dams, plants, highways, parkways, streets, subways, tunnels, sewers, mains, power lines, pumping stations, heavy generators, railways, airports, terminals, docks, piers, wharves, ways, lighthouses, buoys, jetties, breakwaters, levees, and canals, and the construction, alteration, maintenance, or repair of such buildings and works.
- c) Steel means an alloy that includes at least 50 percent iron, between .02 and 2 percent carbon, and may include other elements.

2) Domestic preference.

- a) This award term and condition implements Section 1605 of the ARRA by requiring that all iron, steel, and manufactured goods used in the project are produced in the United States except as provided in paragraph 2b and 2c of this section and condition.
- b) This requirement does not apply to the material listed by the Federal Government as follows:

—None

c) The award official may add other iron, steel, and/or manufactured goods to the list in paragraph 2b of this section and condition if the Federal Government determines that—

- The cost of the domestic iron, steel, and/or manufactured goods would be unreasonable. The cost of domestic iron, steel, or manufactured goods used in the project is unreasonable when the cumulative cost of such material will increase the cost of the overall project by more than 25 percent;
- The iron, steel, and/or manufactured good is not produced, or manufactured in the United States in sufficient and reasonably available quantities and of a satisfactory quality; or
- The application of the restriction of Section 1605 of the ARRA would be inconsistent with the public interest.

3) Request for determination of inapplicability of Section 1605 of the ARRA.

a) (i) Any recipient request to use foreign iron, steel, and/or manufactured goods in accordance with paragraph 2c of this section shall include adequate information for Federal Government evaluation of the request, including—

- A description of the foreign and domestic iron, steel, and/or manufactured goods;
- Unit of measure;
- Quantity;
- Cost;
- Time of delivery or availability;
- Location of the project;
- Name and address of the proposed supplier; and
- A detailed justification of the reason for use of foreign iron, steel, and/or manufactured goods cited in accordance with paragraph 2c of this section.

(ii) A request based on unreasonable cost shall include a reasonable survey of the market and a completed cost comparison table in the format in paragraph 4 of this section.

(iii) The cost of iron, steel, and/or manufactured goods material shall include all delivery costs to the construction site and any applicable duty.

(iv) Any recipient request for a determination submitted after ARRA funds have been obligated for a project for construction, alteration, maintenance, or repair shall explain why the recipient could not reasonably foresee the need for such determination

and could not have requested the determination before the funds were obligated. If the recipient does not submit a satisfactory explanation, the award official need not make a determination.

- b) If the Federal Government determines after funds have been obligated for a project for construction, alteration, maintenance, or repair that an exception to Section 1605 of the ARRA applies, the award official will amend the award to allow use of the foreign iron, steel, and/or relevant manufactured goods. When the basis for the exception is nonavailability or public interest, the amended award shall reflect adjustment of the award amount, redistribution of budgeted funds, and/or other actions taken to cover costs associated with acquiring or using the foreign iron, steel, and/or relevant manufactured goods. When the basis for the exception is the unreasonable cost of the domestic iron, steel, or manufactured goods, the award official shall adjust the award amount or redistribute budgeted funds by at least the differential established in 2 CFR 176.110(a).
  - c) Unless the Federal Government determines that an exception to Section 1605 of the ARRA applies, use of foreign iron, steel, and/or manufactured goods is noncompliant with Section 1605 of ARRA.
- 4) Data. To permit evaluation of requests under paragraph 2 of this section based on unreasonable cost, the Recipient shall include the following information and any applicable supporting data based on the survey of suppliers:

**Foreign and Domestic Items Cost Comparison**

<u>Description</u>	<u>Unit of Measure</u>	<u>Quantity</u>	<u>Cost (\$s)</u>
Item 1:			
Foreign steel, iron, or manufactured good	_____	_____	_____
Domestic steel, iron, or manufactured good	_____	_____	_____
Item 2:			
Foreign steel, iron, or manufactured good	_____	_____	_____
Domestic steel, iron, or manufactured good	_____	_____	_____

[List name, address, telephone number, email address, and contact for suppliers surveyed. Attach copy of response; if oral, attach summary.]

[Include other applicable supporting information.]

[\*Include all delivery costs to the construction site.]

**N. WAGE RATE REQUIREMENTS UNDER SECTION 1606 OF THE ARRA**

In accordance with ARRA, Section 1606, the Borrower assures that it and its subawardees/vendors shall fully comply with said Section and notwithstanding any other provision of law and in a manner consistent with other provisions of ARRA, all laborers and mechanics employed by contractors and subcontractors on projects funded directly by or assisted in whole or in part by and through the Federal Government pursuant to ARRA shall be paid wages at rates not less than those prevailing on projects of a character similar in the locality as determined by the United States Secretary of Labor in accordance with Subchapter IV of Chapter 31 of Title 40, United States Code (Davis-Bacon Act). It is understood that the Secretary of Labor has the authority and functions set forth in Reorganization Plan Numbered 14 or 1950 (64 Stat. 1267; 5 U.S.C. App.) and Section 3145 of Title 40, United States Code.

Pursuant to Reorganization Plan No. 14 and the Copeland Act, 40 U.S.C. 3145, the Department of Labor has issued regulations at 29 CFR parts 1, 3, and 5 to implement the Davis-Bacon and related Acts. Regulations in 29 CFR 5.5 instruct agencies concerning application of the standard Davis-Bacon contract clauses set forth in that section.

The Borrower will complete and certify by signature on Attachment 7 of this Agreement its commitment to comply with 29 CFR 5.5, and return it to the Commission Grants and Loans Officer.

When advertising for a public contract opportunity, Borrowers must attach the applicable wage determinations to the solicitation, assistance agreement, and resulting contract or grant.

**O. ARRA TRANSACTIONS LISTED IN SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS**

- 1) To maximize the transparency and accountability of funds authorized under ARRA as required by Congress and in accordance with 2 CFR 215.21 "Uniform Administrative Requirements for Grants and Agreements" and OMB Circular A-102 Common Rules provisions, the Borrower agrees to maintain records that identify adequately the source and application of ARRA funds. OMB Circular A-102 is available at <http://www.whitehouse.gov/omb/circulars/a102/a102.html>.
- 2) If the Borrower is covered by the Single Audit Act Amendments of 1996 and OMB Circular A-133, "Audits of States, Local Governments, and Non-Profit Organizations," the Borrower agrees to separately identify the expenditures for federal awards under the ARRA on the Schedule of

Expenditures of Federal Awards (SEFA) and the Data Collection Form (SF–SAC) required by OMB Circular A–133. OMB Circular A–133 is available at

<http://www.whitehouse.gov/omb/circulars/a133/a133.html>. This shall be accomplished by identifying expenditures for federal awards made under ARRA separately on the SEFA, and as separate rows under Item 9 of Part III on the SF–SAC by CFDA number, and inclusion of the prefix “ARRA-” in identifying the name of the federal program on the SEFA and as the first characters in Item 9d of Part III on the SF–SAC.

- 3) The Borrower agrees to separately identify to each subawardee, and document at the time of subaward and at the time of disbursement of funds, the federal award number, CFDA number, and amount of ARRA funds. When the Borrower awards ARRA funds for an existing program, the information furnished to subawardee shall distinguish the subawards of incremental ARRA funds from regular subawards under the existing program.
- 4) The Borrower agrees to require its subawardees to include on their SEFA information to specifically identify ARRA funding similar to the requirements for the recipient SEFA described above. This information is needed to allow the recipient to properly monitor subrecipient expenditure of ARRA funds as well as oversight by the federal awarding agencies, Offices of Inspector General, and the Government Accountability Office.

#### **P. DATA IN SUPPORT OF ENERGY SAVINGS AND EMISSION REDUCTIONS**

- 1) The Commission may request utility bill data from ARRA SEP program participants to track program energy saving and greenhouse gas emission reduction impacts. Upon request, ARRA SEP program participants must be prepared to provide utility billing data for at least the 12 months preceding and the 12 months following the project’s implementation of a building retrofit project. To ease the burden of this data provision by the participant, the Commission will work with the participant’s utility company to facilitate the electronic exchange of the required billing data. The Borrower authorizes the Commission to exchange this data with the Borrower’s energy utility company and agrees to complete an authorization form if requested by the Commission.
- 2) Upon written request from the Commission, the Borrower and its subawardees shall allow the Commission or its agent access to facilities and records and allow the Commission or its agent to collect data needed to measure and verify electricity and fuel reductions (this may

include but is not limited to utility bills, metering data, facility equipment surveys, information on operational practices, and site occupancy levels). Further, if requested, the Borrower and subawardee must provide the Commission or its agent associated data from a period prior to the start of the project as necessary to establish baseline energy and/or fuel use. The Borrower shall include this provision in its subaward agreements.

#### **Q. STATE ARRA GUIDELINES FOR STATE ENERGY PROGRAM**

The Commission's *Guidelines for the State Energy Program*, dated September 30, 2009, (publication number CEC-150-2009-004-F) are hereby incorporated by reference and made a part of this Agreement. The Borrower warrants that it has read and understands the Guidelines and acknowledges that requirements specified therein apply to the Borrower and the funding provided under this Agreement. The Borrower acknowledges that the Guidelines are subject to change pursuant to Public Resources Code Section 25462 and that any changes made to the Guidelines shall apply to the Borrower and the funding provided under this Agreement.

### **3. SITE VISITS**

The Commission, the federal awarding agency, and/or their designees have the right to make site visits at reasonable times to review project accomplishments and management control systems and to provide technical assistance, if required. The Borrower must provide and must require subawardees to provide reasonable facilities and assistance for the safety and convenience of the government representatives in the performance of their duties. All site visits and evaluations must be performed in a manner that does not unduly interfere with or delay the work.

### **4. NON-DISCRIMINATION CLAUSE**

This award is subject to the provisions of 10 CFR 1040.1 *et seq.*, Nondiscrimination in Federally Assisted Programs.

The Borrower will complete and certify by signature on the DOE Form 1600.5, U.S. DOE "Assurance of Compliance," (Exhibit D, Attachment 1 of this Agreement) its commitment to comply with this law and return it to the Commission Grants and Loans Officer.

### **5. CERTIFICATIONS REGARDING LOBBYING AND DEBARMENT, SUSPENSION AND OTHER RESPONSIBILITY MATTERS**

This award is subject to the provisions of 10 CFR Part 601, 2 CFR Part 180, and 2 CFR Part 901.

The Borrower will complete and certify by signature on the Form “Certifications Regarding Lobbying and Debarment, Suspension and Other Responsibility Matters” (Exhibit D, Attachment 2 of this Agreement) its commitment to comply with these requirements and return it to the Commission’s Grants and Loans Officer.

## **6. LOBBYING RESTRICTIONS**

The Borrower agrees that none of the funds obligated under this agreement shall be expended, directly or indirectly, to influence congressional action on any legislation or appropriation matters pending before Congress, other than to communicate to Members of Congress as described in 18 U.S.C. 1913. This restriction is in addition to those prescribed elsewhere in statute and regulation.

The Borrower will disclose any lobbying activities by completing and signing the Standard Form LLL (Exhibit D, Attachment 3 of this Agreement) and return it to the Commission’s Grants and Loans Officer.

## **7. NATIONAL POLICY ASSURANCES**

The Borrower agrees to adhere to and include in any subawards the requirements set forth in the attached “National Policy Assurances” (Exhibit D, Attachment 4 of this Agreement).

## **8. PUBLICATIONS**

- A. The Borrower is encouraged to publish or otherwise make publicly available the results of the work conducted under this Agreement.
- B. An acknowledgment of Commission and federal support and a disclaimer must appear in the publication of any material, whether copyrighted or not, based on or developed under this project, as follows:

*Acknowledgment.* “This material is based upon work supported by the California Energy Commission and the U.S. Department of Energy under Award Number(s) DE-0000221.”

## **9. INTELLECTUAL PROPERTY PROVISIONS**

- A. The intellectual property provisions applicable to this award are provided as Exhibit D, Attachment 5, to this award. A list of all intellectual property provisions may be found at [http://www.gc.energy.gov/financial\\_assistance\\_awards.htm](http://www.gc.energy.gov/financial_assistance_awards.htm).
- B. Questions regarding intellectual property matters should be referred to the DOE Award Administrator and the Patent Counsel designated as the service provider for the DOE office that issued the award. ## **10. FEDERAL, STATE, AND MUNICIPAL REQUIREMENTS**

The Borrower must obtain any required permits and comply with all applicable federal, state, and municipal laws, codes, and regulations for work performed under this award.

## **11. [RESERVED]**

## **12. DECONTAMINATION AND/OR DECOMMISSIONING (D&D) COSTS**

Notwithstanding any other provisions of this Agreement, the Government shall not be responsible for or have any obligation to the Borrower or its subawardees for (i) Decontamination and/or Decommissioning (D&D) of any of the Borrower's or its subawardees' facilities, or (ii) any costs which may be incurred by the Borrower or its subawardees in connection with the D&D of any of its facilities due to the performance of the work under this Agreement, whether said work was performed prior to or subsequent to the effective date of this Agreement.

### **13. NATIONAL ENVIRONMENTAL POLICY ACT (NEPA) COMPLIANCE**

The Borrower is restricted from taking any action using federal funds for projects under this award that would have an adverse effect on the environment or limit the choice of reasonable alternatives prior to DOE providing a final NEPA determination regarding these projects.

If the Borrower moves forward with activities that are not authorized for federal funding by the DOE Contracting Officer in advance of the final NEPA determination, the Borrower is doing so at risk of not receiving federal funding, and such costs may not be recognized as allowable cost share.

### **14. NOTICE REGARDING THE PURCHASE OF AMERICAN-MADE EQUIPMENT AND PRODUCTS – SENSE OF CONGRESS**

It is the sense of the Congress that, to the greatest extent practicable, all equipment and products purchased with funds made available under this award should be American-made.

### **15. HISTORIC PRESERVATION**

Prior to the expenditure of federal funds to alter any structure or site, the Borrower is required to comply with the requirements of Section 106 of the National Historic Preservation Act (NHPA) outlined in 36 CFR Part 800, consistent with DOE's 2009 letter of delegation of authority regarding the NHPA. Section 106 applies to historic properties that are listed in or eligible for listing in the National Register of Historic Places. In order to fulfill the requirements of Section 106, the Energy Commission and the Borrower must contact the State Historic Preservation Officer (SHPO), and, if applicable, the Tribal Historic Preservation Officer (THPO), to coordinate the Section 106 review outlined in 36 CFR Part 800. SHPO contact information is available at the following link: <http://www.ncshpo.org/find/index.htm>. THPO contact information is available at the following link: <http://www.nathpo.org/map.html>.

Section 110(k) of the NHPA applies to DOE funded activities. Borrowers shall avoid taking any action that results in an adverse effect to historic properties pending compliance with Section 106.

The Energy Commission executed a Programmatic Agreement (Programmatic Agreement) with the SHPO, as amended, to streamline the Section 106 consultation process and to categorically exclude some projects from the SHPO's direct review and consultation. Because of their nature, these categorically excluded projects cannot impact historic resources. The categorically excluded projects are identified in the Programmatic Agreement and include: (1) undertakings for planning, training and educational purposes; (2) undertakings to replace equipment on existing buildings or structures that result in no building or structure changes or ground disturbances; and (3) undertakings

on buildings or structures less than 45 years of age that will result in no ground disturbances. Projects that are categorically excluded from the SHPO's direct review and consultation will be deemed to have satisfied Section 106 of NHPA without further review or involvement by the SHPO.

The Energy Commission will evaluate projects to determine whether such projects are categorically excluded from the SHPO's direct review and consultation under the Programmatic Agreement. If projects are categorically excluded, the Energy Commission will issue the Borrower a clearance letter on the SHPO's behalf.

In order for the Energy Commission to determine whether a given project is categorically excluded from the SHPO's direct review and consultation, the Borrower must prepare a Consultation Package, as provided in the Programmatic Agreement, for each building or structure upon which the project will be undertaken.

## **16. AVAILABILITY OF FEDERAL FUNDS**

It is mutually agreed that partial or whole funding for this Agreement is dependent upon a federal agreement (DE-EE0000221) that has a scheduled budget period end date of April 30, 2012, and is subject to the following provisions: (1) This Agreement is subject to any additional restrictions, limitations, or conditions enacted by Congress or any statute enacted by Congress that may affect the provisions, terms, or funding of this Agreement; (2) Funding for this Agreement is subject to the approval of the U.S. Department of Energy (DOE) and to any additional restrictions, limitations, or conditions imposed by DOE, federal law, federal court judgments, and/or federal agency orders which may affect the provisions or terms of this Agreement; (3) If Congress does not appropriate sufficient funds for the program, this Agreement shall be amended to reflect any reduction in funds; and (4) The Commission has the option to invalidate the Agreement under the 30-day cancellation clause or to amend the Agreement to reflect any reduction in funds.

## **17. RESOLUTION OF CONFLICTING CONDITIONS**

Any apparent inconsistency between Federal statutes and regulations and the terms and conditions contained in this Exhibit D must be referred to the Commission's Project Manager for guidance.

Any apparent inconsistency between Federal statutes and regulations and the terms and conditions contained in the Loan Agreement, and Exhibits A through C must be referred to the Commission's Project Manager for guidance.

## **18. STATEMENT OF FEDERAL STEWARDSHIP**

DOE will exercise normal federal stewardship in overseeing the project activities performed under this award. Stewardship activities include, but are not limited to, conducting site visits; reviewing performance and financial reports; providing technical assistance and/or temporary intervention in unusual circumstances to correct deficiencies which develop during the project; assuring compliance with terms and conditions; and reviewing technical performance after project completion to ensure that the award objectives have been accomplished.

## **19. UTILITY REBATES**

ARRA State Energy Program funding must be used to create new programs or expand existing programs, including ratepayer-funded programs, and not to supplant or replace existing state, ratepayer, or other funding. Therefore, if after the project is completed, the Borrower receives a rebate from its utility or other source for all or a portion of the project costs that have been funded by this loan, the Borrower must submit principal repayment to the Commission in the amount of that rebate within 10 working days of receipt of the rebate. This repayment will be considered an unscheduled principal repayment.

## **20. CASH MANAGEMENT IMPROVEMENT ACT**

In accordance with 31 United States Code (U.S.C.) sections 3335, 6501, and 6503 (the Cash Management Improvement Act, or CMIA) and implementing regulations at 31 CFR Part 205, the Borrower shall minimize the time elapsing between the drawdown of funds from the Energy Commission and the disbursement of funds. The Borrower shall request reimbursement to occur as close as possible to the disbursement.

The Borrower agrees that it has reviewed the applicable CMIA rules and regulations, and will follow their requirements in handling funds received pursuant to this Agreement. The Borrower also agrees that it will provide written notification to each of its subawardees, if any, of the CMIA and the need for each subawardee to comply with all applicable CMIA provisions and regulations

## **21. SPECIFIC REQUIREMENT TO SUBMIT WASTE MANAGEMENT PLAN**

Prior to the proposed project activities generating any waste, the Borrower is required to submit a copy of the Borrower's Waste Management Plan to the Commission Project Manager. This Waste Management Plan will describe the Borrower's plan to dispose of any sanitary or hazardous waste generated by the proposed project activities. Sanitary and hazardous waste includes, but is not

limited to, construction and demolition debris, old light bulbs, lead ballasts, piping, roofing material, discarded equipment, debris, and asbestos.

The Borrower's Waste Management Plan must comply with all federal, state, and local laws and regulations governing waste disposal.

## **22. SUBCONTRACTS**

Borrower shall submit to the Energy Commission copies of all executed subcontracts. Borrower shall also submit all applicable prevailing wage determinations for any and all labor and mechanic work to be performed, for Energy Commission approval. Borrower shall include this requirement in all subcontracts.

**DAVIS-BACON AND CONTRACT WORK HOURS AND SAFETY STANDARDS ACT**

- (1) **Definitions.** For purposes of this exhibit, Davis Bacon Act and Contract Work Hours and Safety Standards Act, the following definitions are applicable:
- a) Award means any grant, cooperative agreement or technology investment agreement made with Recovery Act funds by the Department of Energy (DOE) to a Recipient. Such Award must require compliance with the labor standards clauses and wage rate requirements of the Davis-Bacon Act (DBA) for work performed by all laborers and mechanics employed by Recipients (other than a unit of State or local government whose own employees perform the construction) Subrecipients, Contractors and subcontractors.
  - b) Contractor means an entity that enters into a Contract. For purposes of these clauses, Contractor shall include (as applicable) prime contractors, Recipients, Subrecipients, and Recipients' or Subrecipients' contractors, subcontractors, and lower-tier subcontractors. "Contractor" does not mean a unit of State or local government where construction is performed by its own employees.
  - c) Contract means a contract executed by a Recipient, Subrecipient, prime contractor or any tier subcontractor for construction, alteration, or repair. It may also mean (as applicable) (i) financial assistance instruments such as grants, cooperative agreements, technology investment agreements, and loans; and, (ii) Sub awards, contracts and subcontracts issued under financial assistance agreements. "Contract" does not mean a financial assistance instrument with a unit of State or local government where construction is performed by its own employees.
  - d) Contracting Officer means the DOE official authorized to execute an Award on behalf of DOE and who is responsible for the business management and non-program aspects of the financial assistance process
  - e) Recipient means any entity other than an individual that receives an Award of Federal funds in the form of a grant, cooperative agreement or technology investment agreement directly from the Federal Government and is financially accountable for the use of any DOE funds or property, and is legally responsible for carrying out the terms and conditions of the program and Award.
  - f) Subaward means an award of financial assistance in the form of money, or property in lieu of money, made under an award by a Recipient to an eligible Subrecipient or by a Subrecipient to a lower- tier subrecipient. The term includes financial assistance when provided by any legal agreement, even if the agreement is called a contract, but does not include the Recipient's procurement of goods and services to carry out the program nor does it include any form of assistance which is excluded from the definition of "Award" above.

- g) Subrecipient means a non-Federal entity that expends Federal funds received from a Recipient to carry out a Federal program, but does not include an individual that is a beneficiary of such a program.

## (2) Davis Bacon Act

- a) Minimum wages.
- (i) All laborers and mechanics employed or working upon the site of the work (or under the United States Housing Act of 1937 or under the Housing Act of 1949 in the construction or development of the project), will be paid unconditionally and not less often than once a week, and without subsequent deduction or rebate on any account (except such payroll deductions as are permitted by regulations issued by the Secretary of Labor under the Copeland Act (29 CFR part 3) ), the full amount of wages and bona fide fringe benefits (or cash equivalents thereof) due at time of payment computed at rates not less than those contained in the wage determination of the Secretary of Labor, regardless of any contractual relationship which may be alleged to exist between the Contractor and such laborers and mechanics.

The most current wage determinations of the Secretary of Labor applicable to this Agreement are posted at [www.wdol.gov](http://www.wdol.gov), and are hereby incorporated by reference into this Agreement. The Secretary of Labor periodically updates wage rates to reflect the prevailing wages in a particular locality. The Recipient, Subrecipient, the Recipient's and Subrecipient's contractors and subcontractors are responsible for checking the wage determinations published at [www.wdol.gov](http://www.wdol.gov) to ensure that the most recent wage determination is incorporated into any contract or subcontract.

Note: The Recipient, Subrecipients, the Recipient's and Subrecipient's contractors and subcontractors under this Agreement **may not** use the residential weatherization worker wage determination published for the Weatherization Assistance Program.

Once a wage determination is applied to any contract or subcontract, the wages set forth in that wage determination shall remain effective for the entire term of that contract even if the Secretary of Labor updates its wage determinations during the term of the contract.

The Recipient, Subrecipients, the Recipient's and Subrecipient's contractors and subcontractors are encouraged to contact the U.S. Department of Labor (DOL) Wage and Hour Division at 1-866-487-9243, or their local DOL Wage and Hour office, with questions concerning choosing the correct wage rates to be paid to a contractor or subcontractor.

Contributions made or costs reasonably anticipated for bona fide fringe benefits under section 1(b)(2) of the Davis-Bacon Act on behalf of laborers or mechanics are considered wages paid to such laborers or mechanics, subject to 29 CFR Section 5.5 (a)(1)(iv) ; also, regular contributions made or costs incurred for more than a weekly period (but not less often than quarterly) under plans, funds, or programs which cover the particular weekly period, are deemed to be constructively made or incurred during such weekly period. Such laborers and mechanics shall be paid the appropriate wage rate and fringe benefits on the wage determination for the classification of work actually performed, without regard to skill, except as provided in 29 CFR Section 5.5(a)(4). Laborers or mechanics performing work in more than one classification may be compensated at the rate specified for each classification for the time actually worked therein: *Provided*, That the employer's payroll records accurately set forth the time spent in each classification in which work is performed. The wage determination (including any additional classification and wage rates conformed under 29 CFR Section 5.5 (a)(1)(ii)) and the Davis-Bacon poster (WH-1321) shall be posted at all times by the Contractor and its subcontractors at the site of the work in a prominent and accessible place where it can be easily seen by the workers.

- (ii) (a) The Contracting Officer shall require that any class of laborers or mechanics, including helpers, which is not listed in the wage determination and which is to be employed under the Contract shall be classified in conformance with the wage determination. The Contracting Officer shall approve an additional classification and wage rate and fringe benefits therefore only when the following criteria have been met:
  - i. The work to be performed by the classification requested is not performed by a classification in the wage determination; and
  - ii. The classification is utilized in the area by the construction industry; and
  - iii. The proposed wage rate, including any bona fide fringe benefits, bears a reasonable relationship to the wage rates contained in the wage determination.
- (b) If the Contractor and the laborers and mechanics to be employed in the classification (if known), or their representatives, and the Contracting Officer agree on the classification and wage rate (including the amount designated for fringe benefits where appropriate), a report of the action taken shall be sent by the Contracting Officer to the Administrator of the Wage and Hour Division, U.S. Department of Labor, Washington, DC 20210. The Administrator, or an authorized representative, will approve, modify, or disapprove every additional classification action within 30 days of receipt and so advise the Contracting Officer or will notify the Contracting Officer within the 30-day period that additional time is necessary.

- (c) In the event the Contractor, the laborers or mechanics to be employed in the classification or their representatives, and the Contracting Officer do not agree on the proposed classification and wage rate (including the amount designated for fringe benefits, where appropriate), the Contracting Officer shall refer the questions, including the views of all interested parties and the recommendation of the Contracting Officer, to the Administrator for determination. The Administrator, or an authorized representative, will issue a determination within 30 days of receipt and so advise the Contracting Officer or will notify the Contracting Officer within the 30-day period that additional time is necessary.
  - (d) The wage rate (including fringe benefits where appropriate) determined pursuant to 29 CFR Section 5.5(a)(1)(ii)(B) or (C), shall be paid to all workers performing work in the classification under this Contract from the first day on which work is performed in the classification.
  - (iii) Whenever the minimum wage rate prescribed in the Contract for a class of laborers or mechanics includes a fringe benefit which is not expressed as an hourly rate, the Contractor shall either pay the benefit as stated in the wage determination or shall pay another bona fide fringe benefit or an hourly cash equivalent thereof.
  - (iv) If the Contractor does not make payments to a trustee or other third person, the Contractor may consider as part of the wages of any laborer or mechanic the amount of any costs reasonably anticipated in providing bona fide fringe benefits under a plan or program, *Provided*, That the Secretary of Labor has found, upon the written request of the Contractor, that the applicable standards of the Davis-Bacon Act have been met. The Secretary of Labor may require the Contractor to set aside in a separate account assets for the meeting of obligations under the plan or program.
- b) Withholding.

The Department of Energy or the Recipient or Subrecipient shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld from the Contractor under this Contract or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to Davis-Bacon prevailing wage requirements, which is held by the same prime contractor, so much of the accrued payments or advances as may be considered necessary to pay laborers and mechanics, including apprentices, trainees, and helpers, employed by the Contractor or any subcontractor the full amount of wages required by the Contract. In the event of failure to pay any laborer or mechanic, including any apprentice, trainee, or helper, employed or working on the site of the work (or under the United States Housing Act of 1937 or under the Housing Act of 1949 in the construction or development of the project), all or part of the wages required by the Contract, the Department of Energy, Recipient or Subrecipient may, after written notice to the Contractor, sponsor, applicant, or owner, take such action as may be necessary

to cause the suspension of any further payment, advance, or guarantee of funds until such violations have ceased.

c) Payrolls and basic records.

(i) Payrolls and basic records relating thereto shall be maintained by the Contractor during the course of the work and preserved for a period of three years thereafter for all laborers and mechanics working at the site of the work (or under the United States Housing Act of 1937, or under the Housing Act of 1949, in the construction or development of the project). Such records shall contain the name, address, and social security number of each such worker, his or her correct classification, hourly rates of wages paid (including rates of contributions or costs anticipated for bona fide fringe benefits or cash equivalents thereof of the types described in section 1(b)(2)(B) of the Davis-Bacon Act), daily and weekly number of hours worked, deductions made and actual wages paid. Whenever the Secretary of Labor has found under 29 CFR Section 5.5(a)(1)(iv) that the wages of any laborer or mechanic include the amount of any costs reasonably anticipated in providing benefits under a plan or program described in section 1(b)(2)(B) of the Davis-Bacon Act, the Contractor shall maintain records which show that the commitment to provide such benefits is enforceable, that the plan or program is financially responsible, and that the plan or program has been communicated in writing to the laborers or mechanics affected, and records which show the costs anticipated or the actual cost incurred in providing such benefits. Contractors employing apprentices or trainees under approved programs shall maintain written evidence of the registration of apprenticeship programs and certification of trainee programs, the registration of the apprentices and trainees, and the ratios and wage rates prescribed in the applicable programs.

(ii) (a) The Contractor shall submit weekly for each week in which any Contract work is performed a copy of all payrolls to the Department of Energy if the agency is a party to the Contract, but if the agency is not such a party, the Contractor will submit the payrolls to the Recipient or Subrecipient (as applicable) applicant, sponsor, or owner, as the case may be, for transmission to the Department of Energy. The payrolls submitted shall set out accurately and completely all of the information required to be maintained under 29 CFR Section 5.5(a)(3)(i), except that full social security numbers and home addresses shall not be included on weekly transmittals. Instead the payrolls shall only need to include an individually identifying number for each employee (e.g., the last four digits of the employee's social security number). The required weekly payroll information may be submitted in any form desired. Optional Form WH-347 is available for this purpose from the Wage and Hour Division Web site at <http://www.dol.gov/whd/forms/wh347instr.htm> or its successor site. The prime Contractor is responsible for the submission of copies of payrolls by all subcontractors. Contractors and subcontractors shall maintain the full social security number and current address of each covered worker, and shall provide them upon request to the Department of Energy if the agency is a party to the Contract, but if the agency is not such a party, the Contractor will submit them to the Recipient or

Subrecipient (as applicable) applicant, sponsor, or owner, as the case may be, for transmission to the Department of Energy, the Contractor, or the Wage and Hour Division of the Department of Labor for purposes of an investigation or audit of compliance with prevailing wage requirements. It is not a violation of this section for a prime contractor to require a subcontractor to provide addresses and social security numbers to the prime contractor for its own records, without weekly submission to the sponsoring government agency (or the Recipient or Subrecipient (as applicable) applicant, sponsor, or owner).

- (b) Each payroll submitted shall be accompanied by a "Statement of Compliance," signed by the Contractor or subcontractor or his or her agent who pays or supervises the payment of the persons employed under the Contract and shall certify the following:
  - i. That the payroll for the payroll period contains the information required to be provided under Section 5.5 (a)(3)(ii) of Regulations, 29 CFR part 5, the appropriate information is being maintained under Section 5.5 (a)(3)(i) of Regulations, 29 CFR part 5, and that such information is correct and complete;
  - ii. That each laborer or mechanic (including each helper, apprentice, and trainee) employed on the Contract during the payroll period has been paid the full weekly wages earned, without rebate, either directly or indirectly, and that no deductions have been made either directly or indirectly from the full wages earned, other than permissible deductions as set forth in Regulations, 29 CFR part 3;
  - iii. That each laborer or mechanic has been paid not less than the applicable wage rates and fringe benefits or cash equivalents for the classification of work performed, as specified in the applicable wage determination incorporated into the Contract.
- (c) The weekly submission of a properly executed certification set forth on the reverse side of Optional Form WH-347 shall satisfy the requirement for submission of the "Statement of Compliance" required by 29 CFR Section 5.5 (a)(3)(ii)(B).
- (d) The falsification of any of the above certifications may subject the Contractor or subcontractor to civil or criminal prosecution under section 1001 of title 18 and section 3729 of title 31 of the United States Code.
- (iii) The Contractor or subcontractor shall make the records required under 29 CFR Section 5.5(a)(3)(i) available for inspection, copying, or transcription by authorized representatives of the Department of Energy or the Department of Labor, and shall permit such representatives to interview employees during working hours on the job. If the Contractor or subcontractor fails to submit the required records or to make them available, the Federal agency may, after written notice to the Contractor, sponsor, applicant, or owner, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of

funds. Furthermore, failure to submit the required records upon request or to make such records available may be grounds for debarment action pursuant to 29 CFR Section 5.12.

d) Apprentices and trainees--

- (i) Apprentices. Apprentices will be permitted to work at less than the predetermined rate for the work they performed when they are employed pursuant to and individually registered in a bona fide apprenticeship program registered with the U.S. Department of Labor, Employment and Training Administration, Office of Apprenticeship Training, Employer and Labor Services, or with a State Apprenticeship Agency recognized by the Office, or if a person is employed in his or her first 90 days of probationary employment as an apprentice in such an apprenticeship program, who is not individually registered in the program, but who has been certified by the Office of Apprenticeship Training, Employer and Labor Services or a State Apprenticeship Agency (where appropriate) to be eligible for probationary employment as an apprentice. The allowable ratio of apprentices to journeymen on the job site in any craft classification shall not be greater than the ratio permitted to the Contractor as to the entire work force under the registered program. Any worker listed on a payroll at an apprentice wage rate, who is not registered or otherwise employed as stated above, shall be paid not less than the applicable wage rate on the wage determination for the classification of work actually performed. In addition, any apprentice performing work on the job site in excess of the ratio permitted under the registered program shall be paid not less than the applicable wage rate on the wage determination for the work actually performed. Where a Contractor is performing construction on a project in a locality other than that in which its program is registered, the ratios and wage rates (expressed in percentages of the journeyman's hourly rate) specified in the Contractor's or subcontractor's registered program shall be observed. Every apprentice must be paid at not less than the rate specified in the registered program for the apprentice's level of progress, expressed as a percentage of the journeymen hourly rate specified in the applicable wage determination. Apprentices shall be paid fringe benefits in accordance with the provisions of the apprenticeship program. If the apprenticeship program does not specify fringe benefits, apprentices must be paid the full amount of fringe benefits listed on the wage determination for the applicable classification. If the Administrator determines that a different practice prevails for the applicable apprentice classification, fringes shall be paid in accordance with that determination. In the event the Office of Apprenticeship Training, Employer and Labor Services, or a State Apprenticeship Agency recognized by the Office, withdraws approval of an apprenticeship program, the Contractor will no longer be permitted to utilize apprentices at less than the applicable predetermined rate for the work performed until an acceptable program is approved.
- (ii) Trainees. Except as provided in 29 CFR Section 5.16, trainees will not be permitted to work at less than the predetermined rate for the work performed unless they are employed pursuant to and individually

registered in a program which has received prior approval, evidenced by formal certification by the U.S. Department of Labor, Employment and Training Administration. The ratio of trainees to journeymen on the job site shall not be greater than permitted under the plan approved by the Employment and Training Administration. Every trainee must be paid at not less than the rate specified in the approved program for the trainee's level of progress, expressed as a percentage of the journeyman hourly rate specified in the applicable wage determination. Trainees shall be paid fringe benefits in accordance with the provisions of the trainee program. If the trainee program does not mention fringe benefits, trainees shall be paid the full amount of fringe benefits listed on the wage determination unless the Administrator of the Wage and Hour Division determines that there is an apprenticeship program associated with the corresponding journeyman wage rate on the wage determination which provides for less than full fringe benefits for apprentices. Any employee listed on the payroll at a trainee rate who is not registered and participating in a training plan approved by the Employment and Training Administration shall be paid not less than the applicable wage rate on the wage determination for the classification of work actually performed. In addition, any trainee performing work on the job site in excess of the ratio permitted under the registered program shall be paid not less than the applicable wage rate on the wage determination for the work actually performed. In the event the Employment and Training Administration withdraws approval of a training program, the Contractor will no longer be permitted to utilize trainees at less than the applicable predetermined rate for the work performed until an acceptable program is approved.

- (iii) Equal employment opportunity. The utilization of apprentices, trainees and journeymen under this part shall be in conformity with the equal employment opportunity requirements of Executive Order 11246, as amended, and 29 CFR part 30.
- e) Compliance with Copeland Act requirements. The Contractor shall comply with the requirements of 29 CFR part 3, which are incorporated by reference in this Contract.
- f) Contracts and Subcontracts. The Recipient, Subrecipient, the Recipient's and Subrecipient's contractors and subcontractor shall insert in any Contracts the clauses contained in 29 CFR Sections 5.5(a)(1) through (10) and such other clauses as the Department of Energy may by appropriate instructions require, and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The Recipient shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all of the paragraphs in this clause.
- g) Contract termination: debarment. A breach of the Contract clauses in 29 CFR Section 5.5 may be grounds for termination of the Contract, and for debarment as a contractor and a subcontractor as provided in 29 CFR Section 5.12.

- h) Compliance with Davis-Bacon and Related Act requirements. All rulings and interpretations of the Davis-Bacon and Related Acts contained in 29 CFR parts 1, 3, and 5 are herein incorporated by reference in this Contract.
- i) Disputes concerning labor standards. Disputes arising out of the labor standards provisions of this Contract shall not be subject to the general disputes clause of this Contract. Such disputes shall be resolved in accordance with the procedures of the Department of Labor set forth in 29 CFR parts 5, 6, and 7. Disputes within the meaning of this clause include disputes between the Recipient, Subrecipient, the Contractor (or any of its subcontractors) and the contracting agency, the U.S. Department of Labor, or the employees or their representatives.
- j) Certification of eligibility.
  - (i) By entering into this Contract, the Contractor certifies that neither it (nor he or she) nor any person or firm who has an interest in the Contractor's firm is a person or firm ineligible to be awarded Government contracts by virtue of section 3(a) of the Davis-Bacon Act or 29 CFR Section 5.12(a)(1).
  - (ii) No part of this Contract shall be subcontracted to any person or firm ineligible for award of a Government contract by virtue of section 3(a) of the Davis-Bacon Act or 29 CFR Section 5.12(a)(1).
  - (iii) The penalty for making false statements is prescribed in the U.S. Criminal Code, 18 U.S.C. Section 1001.
- k) Requirement to submit copies of certified payrolls
 

Borrower is responsible to submit to the Energy Commission on a weekly basis from the beginning of the project, a copy of all certified payrolls prepared in accordance with this Exhibit for all lower tier contractors.
- l) Requirement to notify the Energy Commission of any non-compliance
 

Borrower is responsible to notify the Energy Commission of any non-compliance with Davis-Bacon Act prevailing wage requirements by any lower tier contractors.

**3) Contract Work Hours and Safety Standards Act.** As used in this paragraph, the terms laborers and mechanics include watchmen and guards.

- a) Overtime requirements. No Contractor or subcontractor contracting for any part of the Contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.

- b) Violation; liability for unpaid wages; liquidated damages. In the event of any violation of the clause set forth in 29 CFR Section 5.5(b)(1) the Contractor and any subcontractor responsible therefore shall be liable for the unpaid wages. In addition, such Contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in 29 CFR Section 5.5(b)(1), in the sum of \$10 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in 29 CFR Section 5.5(b)(1).
- c) Withholding for unpaid wages and liquidated damages. The Department of Energy or the Recipient or Subrecipient shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the Contractor or subcontractor under any such contract or any other Federal contract with the same prime Contractor, or any other federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime Contractor, such sums as may be determined to be necessary to satisfy any liabilities of such Contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in 29 CFR Section 5.5 (b)(2).
- d) Contracts and Subcontracts. The Recipient, Subrecipient and Recipient's and Subrecipient's contractor or subcontractor shall insert in any Contracts the clauses set forth in 29 CFR Sections 5.5 (b)(1) through (4) and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The Recipient shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in 29 CFR Sections 5.5 (b)(1) through (4) .
  - d) The Contractor or subcontractor shall maintain payrolls and basic payroll records during the course of the work and shall preserve them for a period of three years from the completion of the Contract for all laborers and mechanics, including guards and watchmen, working on the Contract. Such records shall contain the name and address of each such employee, social security number, correct classifications, hourly rates of wages paid, daily and weekly number of hours worked, deductions made, and actual wages paid. The records to be maintained under this paragraph shall be made available by the Contractor or subcontractor for inspection, copying, or transcription by authorized representatives of the Department of Energy and the Department of Labor, and the Contractor or subcontractor will permit such representatives to interview employees during working hours on the job.
